

FOR IMMEDIATE RELEASE

Google selects TE SubCom to design and deploy Dunant cable system

Dunant submarine cable system will link the East Coast of the United States to Europe

EATONTOWN, N.J., July 17, 2018 – [TE SubCom](#), a [TE Connectivity Ltd.](#) company and an industry pioneer in undersea communications technology, today announced that Google has selected the company as the supplier of its Dunant submarine cable system. The four-fiber pair cable system will span over 6,400km and will connect the East Coast of the United States to Europe. The cable will add dedicated capacity to Google’s global network and will enable interconnection to other subsea infrastructure in the region.

“We are proud to be working with Google on this important cable system and to be helping to increase internet performance for all,” said Sanjay Chowbey, president of TE SubCom. “The Dunant cable system will be built using SubCom’s industry-leading A1 cable family, which is optimized for projects compatible with higher DCR. As a leading supplier of submarine cable systems, we look forward to continuing to work with our global partners to create more accessible and faster internet access.”

Named in honor of Henry Dunant, a Swiss businessman, social activist, first recipient of the Nobel Peace Prize, and founder of the Red Cross, the Dunant cable system honors his memory and commitment to humanitarian ideals. The cable will improve global connectivity and further improve Google Cloud’s network.

About TE SubCom

TE SubCom (SubCom), a TE Connectivity Ltd. company, is an industry pioneer in undersea communications technology and marine services, and a leading global supplier for today’s undersea communications requirements. As a vertically integrated supplier, SubCom designs, manufactures, deploys, and maintains the industry’s most reliable fiber optic cable systems. Its solutions include long-haul and regional systems, repeaterless networks, capacity upgrades, offshore oil and gas, and scientific research applications. SubCom brings end-to-end network knowledge and global experience to support on-time delivery and the needs of customers worldwide. To date, the company has deployed enough subsea communication cable to circle the Earth 15 times at the equator. For more information, visit www.SubCom.com.

About TE Connectivity

TE Connectivity Ltd. is a \$13 billion global technology and manufacturing leader creating a safer, sustainable, productive, and connected future. For more than 75 years, our connectivity and sensor solutions, proven in the harshest environments, have enabled advancements in transportation, industrial applications, medical technology, energy, data communications, and the home. With 78,000 employees, including more than 7,000 engineers, working alongside customers in nearly 150 countries, TE ensures that EVERY CONNECTION COUNTS.
